External Decision Filter (EDF)

Use this template to evaluate decisions using a strict external decision filter. Keep inputs concise and objective. Avoid optimization language. The output should be one of: ACCEPT, PROCEED WITH RISK FLAG, or REJECTED — UNSATISFIABLE.

Objective

Define the decision in one clear sentence.

Constraints (max 3)

List up to three non-negotiable constraints.

Time Horizon

Specify the decision window (e.g., 7 days, 30 days).

Decision Owner

Single accountable owner (one person or role).

Risk Tolerance

Low / Medium / High

Decision Output

Result: _____

Notes (optional): _____
